Our teachers bring an average of 12 years of teaching experience to their classes. About 58 percent have a full credential. Statewide, about 93 percent of elementary school teachers hold this credential.

ACADEMIC PERFORMANCE

California Standards Tests

This series of tests is based on what California students are expected to know and learn at each grade level.

Student Proficiency

MEASURES OF ACADEMIC PROGRESS

We track our school's academic achievement over time with two measures: the Academic Performance Index (API) and Adequate Yearly Progress (AYP). These measures combine test results differently and often provide conflicting views of student progress.

Academic Performance Index (API)

This is California's way of rating schools. The API is based on student test scores, and it rates schools on a scale from 200 to 1000. The state expects schools to obtain an API of 800. Underperforming schools have APIs falling in the bottom half of all schools in the state and are eligible for state-funded programs to improve student achievement. Our school's API was 858, compared with 735 for the average elementary school.

Adequate Yearly Progress (AYP)

This is a federal measure that requires schools to meet test score goals schoolwide and for subgroups* of students. If just one group of students fails to meet its goals, the school does not make AYP. Program Improvement schools did not make AYP for two or more years in a row in the same subject and must provide student transfers to higher-performing schools and tutoring services.

CALIFORNIA API ACADEMIC PERFORMANCE INDEX		FEDERAL AYP ADEQUATE YEARLY PROGRESS	
Met schoolwide growth target	Yes	Met AYP	Yes
Met growth target for prior school year	Yes	Met schoolwide participation rate	Yes
API score	858	Met schoolwide test score goals	Yes
Growth attained from prior year	+26	Met subgroup* participation rate	N/A
Met subgroup* growth targets	Yes	Met subgroup* test score goals	N/A
Governor's Performance Award	Yes	Met schoolwide API for AYP	Yes
Underperforming school†	No	Program Improvement school	No

* - Includes English learners, special education students, low-income students, and ethnic groups that must meet separate API and AYP goals.

N/A - Data were not available or not reported; the number of valid test scores was too small for statistical significance; the school or district is changing the testing data and a new API will be released in 2005; or the school participates in an alternative accountability program.

† - Includes schools participating in the Immediate Intervention Underperforming Schools Program and the High Priority Schools Grant Program.
